

La seguridad en una puerta blindada no debe valorarse por su peso ni tampoco reñirse con la decoración. En EBANING fabricamos una puerta blindada de alta calidad, pensada para proteger y decorar, ajustándose a todas sus necesidades y complementos, ofreciéndole al mismo tiempo una amplia y extensa gama de acabados.

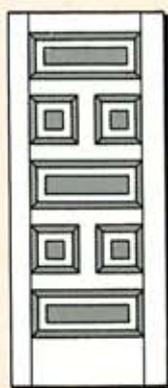

En EBANING utilizamos sólo buena madera de Pino para fabricar un conjunto estable y fuerte al que añadimos 2 planchas de acero de 0,8 mm. de espesor para luego decorarlo al exclusivo gusto del cliente. El resultado es una perfecta combinación de seguridad, belleza y buen servicio que responde a los más altos niveles de exigencia.
